

# Soil Health and Management to address Soil Acidification and Soil Erosion

## FINAL WORKSHOP

*North East CMA is supporting growers to better understand soil health and identify the key landscape issues of soil acidification and soil erosion as part of the NECMA Soil Management Strategy.*

Using our Transition to Soil Health framework, this final workshop will address local soil concerns of acidification and erosion, with detailed soil analysis from local properties to discuss interpretation and development of on-farm practices to manage landscape health and farm productivity.

We will equip growers with improved skills to identify and manage acidification and soil erosion in NE VIC landscapes

**In the naturally high rainfall areas of NE Vic., soil acidification and erosion are normal interactions between soils and climate, however, often misunderstood in farming practices and the negative impact to the broader region landscapes.**

**FOR:** Chestnut Hazelnut and Walnut Association Members **FREE**  
All other growers welcome - \$33 fee – inclusive of the final report

**VENUE:** Stanley Hotel, STANLEY, VICTORIA

**DATE:** Thursday 13<sup>th</sup> May 2021

**PROGRAM:**

8.30 - Welcome and Registration

9.00am Transition to Soil Health,

10.15am Break

10.30 - Soil Analysis Results, Farm Management

12.00pm Conclude
